

Blue Cheese

ITEM CODE: BL4001.4

PIEMONTE

Gorgonzola Piccante D.O.P. Gran Riserva®

The Gorgonzola of history. A great blue cheese produced with cow's milk from a small dairy. The processing is entirely manual. The rind has a beautiful pink colour given by the washed rind seasoning. Aromaticity, intensity and persistence are the most important characteristics of this great cheese.

INGREDIENTS:

Pasteurized cow's milk, lactic ferments, salt, rennet, Penicillium

INEDIBLE RIND

Seasoning: 120 days

Technical sheet

Production Technologies

Application: the gorgonzola cheese is produced during the year from whole cow's milk of the farms located in the typical geographical area. The milk is coagulated after having been pasteurized in boilers from 6 quarters due to the addition of veal rennet, selected yeasts and spores of penicillium at a temperature of about 30 -32 °C. The obtained curd is cut, fared on table used to contain it fist and the manually formed into molds. The obtained forms are subsequently dry - salted on the surface. Maturing takes place on spruce boards in cells at a temperature of 4-5°C and humidity of 90 -95 °C during the curing phase the shapes are drilled on the two flat faces to allow the marbling development and turned over periodically the maturing of this product is 120 days.

Dimensions

SHAPE: cylindrical with flat faces

HEIGHT: 15 - 19 cm

Chemical Characteristics

HUMIDITY: 44 %

DRY MATTER: 55.8%

FAT IN DRY MATTER: 53 %

PH: 6 ±0.2
